

CLOUD PRODUCT COMPARISON GUIDE

Malwarebytes™ for Business

Features & capabilities	Malwarebytes Incident Response	Malwarebytes Endpoint Protection	Malwarebytes Endpoint Detection and Response
THREAT REMEDIATION			
On-demand and scheduled threat scans	✓	✓	✓
Linking Engine/Remediation Engine Malware/artifact removal	✓	✓	✓
Malwarebytes Breach Remediation (MBBR) Dissolvable remediation agent	✓	✓	✓
Forensic Timeliner tool Forensics tool for Windows environments	✓	✓	✓
Discovery and Deployment tool Unmanaged endpoint discovery and agent deployment	✓	✓	✓
THREAT PREVENTION			
USB Device Control Set permissions for USB mass storage devices to Block, Allow, or Read-Only access		✓	✓
Windows real-time malware protection		✓	✓
Windows real-time exploit and file-less attack protection		✓	✓
Windows real-time ransomware protection		✓	✓
macOS real-time malware protection		✓	✓
Windows and Linux server malware protection		Requires Server license	Requires Server license
Reinforce Prevention with Nebula Modules	✓	✓	✓
MULTI-VECTOR PROTECTION – 7 layers of Malwarebytes technologies to stop an attacker at any point of the attack chain			
Web Protection Helps prevent access to malicious websites, ad networks, scammer networks		✓	✓
Application Hardening Reduces vulnerability exploit surface and proactively detects fingerprinting attempts used by advanced attacks		✓	✓
Exploit Mitigation Proactively detects and blocks attempts to abuse vulnerabilities and remotely execute code on the endpoint		✓	✓
Application Behavior Protection Helps prevent applications from being leveraged to infect the endpoint		✓	✓
Anomaly Detection Machine Learning Proactively identifies unknown viruses and malware via machine learning techniques		✓	✓
Payload Analysis Anti-malware technology designed to identify entire families of known and relevant malware with heuristic and behavioral rules		✓	✓
Ransomware Mitigation Detects and blocks ransomware identified via behavioral monitoring technology		✓	✓
Brute Force Protection Protection for Windows endpoints from suspicious connections via remote devices		Windows desktop and server	Windows desktop and server

Features & capabilities	Malwarebytes Incident Response	Malwarebytes Endpoint Protection	Malwarebytes Endpoint Detection and Response
THREAT HUNTING, ISOLATION, AND RECOVERY			
Suspicious Activity Monitoring Continuous monitoring and visibility of endpoint file system events, network connections, process events, and registry activity			Windows desktop server, macOS
Flight Recorder Search Freeform threat hunting across all devices managed by EDR			Windows desktop server, macOS
Integrated Cloud Sandbox Observes behaviors and actions of suspicious files, validating local Anomaly Detection Machine Learning verdicts			Windows desktop and server
Endpoint Isolation Network, process, and desktop isolation designed to prevent malware from phoning home and locks out remote attackers			Windows desktop server, macOS
Ransomware Rollback Up to 72 hours of protection for files encrypted, deleted, or modified by a ransomware attack			Windows desktop server
MITRE ATT&CK Mapping Highlights how Malwarebytes detection rules tie into the MITRE ATT&CK Framework			Windows desktop server
Malwarebytes Cloud Sandbox Ability to upload files for sandbox detonation and analysis			Windows desktop server
Active Response Shell Remotely retrieve suspicious code and leverage Forensic Timeliner for investigation and logging			Windows desktop server
MANAGEMENT			
Centralized management console	Cloud-based Nebula	Cloud-based Nebula	Cloud-based Nebula
Threat visibility dashboards	✓	✓	✓
Asset management Collects and displays endpoint details, including installed software, updates, startup programs, and more	✓	✓	✓
Automated and on-demand reports	✓	✓	✓
Email notifications	✓	✓	✓
Syslog support	✓	✓	✓
Role-based access control (RBAC)	✓	✓	✓
Single sign-on (SSO) with SAML 2.0 support	✓	✓	✓
Active Directory integration	✓	✓	✓
Integration with existing security and management tools	✓	✓	✓
Required deployment components	Web browser, modular shared endpoint agent	Web browser, modular shared endpoint agent	Web browser, modular shared endpoint agent
SUPPORT			
Phone, email, chat, and remote technical support	Included	Included	Included
