3.1

Considering the following in a template:

```
{{ path("home") }}
```

```
{{ path("home") }}
```

And the following declaration of route:

And the following declaration of route:

```
<routes>
  <route id="home" path="/" schemes="https">
    <default key="_controller">AppBundle:Main:home</default>
  </route>
</routes>
```

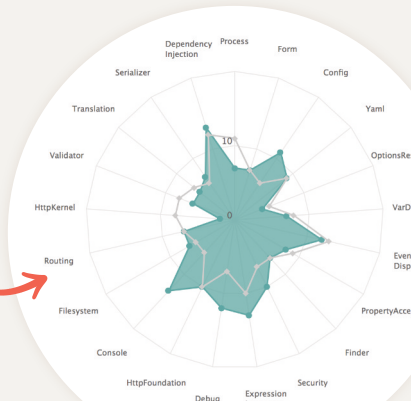

What will be displayed if the current scheme is http?

Choices

A fatal error will occur.

<https://domain.name/>

<http://domain.name/>
