

Applied Biosystems™

MicroAmp™ 96-Well Reaction Tube/Tray/Retainer Set, 0.2 mL

**Catalog number:** 403083Related applications: [PCR](#) | [Real Time PCR \(qPCR\)](#)

Description

The Applied Biosystems® MicroAmp® 96-Well Reaction Tube/Tray/Retainer Set is a completely pre-assembled unit containing MicroAmp® Reaction Tubes without caps already loaded in a MicroAmp® 96-Well Tray/Retainer Set. MicroAmp® 96-Well Reaction Tube/Tray/Retainer Sets are optimally designed for precise PCR on Applied Biosystems® 0.2 mL thermal cyclers.

- Completely pre-assembled for convenience
- Available in economical 100-unit bulk packs
- Non-sterile and autoclavable

Greater Sample Uniformity

Use with all instruments that have heated sample covers to eliminate condensation and the need for a mineral oil overlay. Proprietary MicroAmp® Reaction Tubes are essential for high-performance PCR and ensure the greatest temperature and amplification uniformity for your samples. The MicroAmp® 96-Well Reaction Tube/Tray/Retainer Set requires caps or full plate covers to seal the tubes.

Note: See user's manual or package insert for limited label license and trademark information. For Research Use Only. Not for use in diagnostics procedures.

Specifications

Color:	Natural
For Use With (Equipment):	2720 Thermal Cycler, GeneAmp 9700
Plate Compatibility:	96-Well Plates
Product Line:	MicroAmp®
Product Size:	20 assemblies
Shipping Condition:	Room Temperature
Type:	Tube Tray

Contents & storage

Contains 20 MicroAmp® 96-Well Reaction Tube/Tray Retainer Sets. Store at room temperature.
