

PCR microtube 0,1 ml with or without cap strips, Axygen®

Marque : CORNING-AXYGEN

Low profile 8 strips PCR tubes ideal for low sample volume reactions. Low profile design allows reduced reaction time and evaporation due to less dead air volume.

Low profile design results in faster and more efficient PCR reactions

Tubes available in white or clear, with or without cap

Leak-Proof Seals

Transfert thermique précis

Certifié sans DNase-/Rnase et sans pyrogène
