

Applied Biosystems™

MicroAmp™ 8-Tube Strip, 0.2 mL, assorted colors

**Catalog number:** N8010838**Related applications:** [PCR](#)

Description

The Applied Biosystems® MicroAmp® 8-Tube Strips are optimally designed for precise PCR and fits on 0.2mL thermal cyclers including the Veriti™ 96-Well Thermal Cycler, GeneAmp® PCR System 9700 and the Applied Biosystems® 2720 Thermal Cycler.

- Assorted colors--red, orange, blue, and green--for easy discrimination
- Designed as strips of 8 tubes for convenience
- Manufactured to precisely fit industry standard well spacing

You can use this product with all instruments that feature heated sample covers to eliminate condensation and the need for a mineral oil overlay. Proprietary MicroAmp® tubes are essential for high performance PCR. They ensure the greatest temperature and amplification uniformity for your samples. These one-piece strips are composed of eight 0.2 mL MicroAmp® Reaction Tubes joined near the tube opening.

For Research Use Only. Not for use in diagnostic procedures.

Specifications

Cap Type:	Not Included
Color:	Assorted Colors
For Use With (Equipment):	2720 Thermal Cycler, 310 Genetic Analyzer, GeneAmp 9700, ProFlex™ PCR System, SimpliAmp™ Thermal Cycler, StepOne™, Veriti Dx Thermal Cycler, Veriti Thermal Cycler
Product Line:	MicroAmp®
Product Size:	120 strips
Shipping Condition:	Room Temperature
Tube Type:	Strip of 8
Volume (Metric):	0.2 mL

Contents & storage

Strip of 8 attached reaction tubes without caps, assorted colors. Recommended maximum reaction volume of 100µL.
