Description	
Catalogue Number	SAMTUBING
Trade Name	Smplicity
Description	Smplicity™ Filtration System Tube Set Assembly
Background Information	Overview of Smplicity® G2 System - Smplicity® G2 Filtration System enables vacuum driven filtration of up to 8 samples at once, directly into HPLC vials. - Filtration for HPLC sample prep without syringes. Sample is added to an adapter funnel on a standard Millex® 33 mm filter (Millex® Filters for the Smplicity® G2 System) or an integrated funnel and filter (Millex Smplicity® filter) - Smplicity® G2 System has lower ergonomic impact than manual syringe filtration Applications: HPLC; Filtration of viscous or particulate laden samples for HPLC

Product Information	
Components	Smplicity Filtration System

Applications	
Application	Vacuum filtration system for sample preparation for HPLC
Key Applications	- Analytical Sample Prep - High Performance Liquid Chromatography (HPLC)

Biological Information	
Sterility	Non-Sterile

Materials Information	
Chemistry	Silicone (SI)
Product Usage Statements	
Regulatory Conformance	For general laboratory use only
Packaging Information	
Material Size	1
