

## Corning Incorporated Life Sciences

Registered  
ISO 9001:2008

# Product Description

**Catalog Number:** 3643

**Product Description:** Corning® 384-well, low volume, black plate with clear flat bottom, poly-d-lysine coated, with lid

### Component Materials:

- |              |   |   |
|--------------|---|---|
| Plate walls  | - | Medium Impact Polystyrene, meets <i>USP, Class VI</i> requirements for plastic containers and closures. Black concentrate |
| Plate bottom | - | Virgin Polystyrene, meets <i>USP, Class VI</i> requirements for plastic containers and closures.                          |
| Lid          | - | Virgin Polystyrene, meets <i>USP, Class VI</i> requirements for plastic containers and closures.                          |

### Product Dimensions:

- |                          |   |              |                               |   |          |
|--------------------------|---|--------------|-------------------------------|---|----------|
| Length of Plate          | - | 5.030 in.    | Width of Square Well @ Top    | - | .130 in. |
| Width of Plate           | - | 3.365 in.    | Width of Square Well @ Bottom | - | .079 in. |
| Depth of Well            | - | .370 in.     | Height with Lid               | - | .573 in. |
| Tolerances of Dimensions | - | +/- .010 in. | Working Volume per well       | - | 50µL     |

### Bioburden:

This product has been tested for bioburden contamination. Results: less than .52% of the wells contaminated.

### Pyrogens:

The product has been tested and has met the criteria established in the current version of ANSI/AAMI ST 72:2002/(R)2010 *Bacterial Endotoxins - Test methodologies, routine monitoring, and alternative to batch testing*. Results: ≤ 0.1 EU/mL (≤ 4EU/device)

### Optical Characteristics:

The product is made of opaque black polystyrene walls to minimize well to well crosstalk and background fluorescence and /or luminescence. The bottom is made of clear polystyrene to permit direct microscopic viewing.

### Poly-D-Lysine:

The plates are coated with a 70 - 150 KD PDL polymer via a proprietary method, which creates a uniform net positive charge on the plastic surface. Manufactured wholly from synthetic or manufactured materials and does not contain any raw materials produced from or substances derived of animal origin.

### Cell Attachment and Growth Characteristics:

The product has been tested for the attribute of cell attachment and growth utilizing an attachment-dependent mammalian cell line in a serum free media.

### Bovine Spongiform Encephalopathy and Transmissible Spongiform Encephalopathy:

This product complies with the latest version of EMEA 410/01 "Note for Guidance on minimizing the risk of transmitting animal spongiform encephalopathy agents via human veterinary products" by virtue of all bovine derived material having been processed per specific conditions of section 6.4 of EMEA/410/01.

### Storage Conditions:

Recommended Storage is from 4°C to 25°C

### Performance Testing:

Each manufacturing lot is sampled and tested in accordance with Standard Operating Procedures.

- |                    |   |
|--------------------|---|
| Visual Attributes: | Visual examination of the product.  |
| Packaging:         | Inspection for seal and barrier integrity, accurate labeling and correct product configuration. |
| Cell Growth:       | Visual for cell attachment.   |

### Lot Number Designation:

8 Digit Lot Number: First 3 digits - Julian Date, start of manufacturing; Next 2 digits - Year of manufacture; Last 3 digits - Batch identification.
