

Product name : **Secure Seal™**

Catalogue no.: **T329-1**

Edition date : 2009-04-20

Revision : 2014-04-10

Approved by : Annette Roy, QA coordinator

This document replaces any previous version

Product identification

- Designation: **Secure Seal™ for PCR plates**

Production Information

- Producer's name: **Simport Scientific**
- Address: 2588 Bernard Pilon, Beloeil (Québec), J3G 4S5
- Tel. no / web site: (450) 464-1723 / www.Simport.com

Packaging

- Case Cardboard box containing 10 bags of 100 units, for a total of 1000 sheets

Traceability.

- Lot no
- Composition: 8 digits
- Location: ① On exterior case label.
(The lot number can be found in different locations) ② On inserted label inside case.
③ On inner package.

Standard conformity.

- **MIL-STD-105E** Sampling and inspection procedures
- **PCR certified** free of detectable RNase, DNase and human/mouse DNA

Quality assurance

- No presence of contamination in plastic
- Visual attributes
- Dimension measurements
- Certificate available upon request

Specifications

- Adhesive film for PCR plates. Adhesive backing is inert and does not interfere with reactions.
- Material: polyester film
- Temperature range: -70° to 120°C
- Certified RNase, DNase and DNA free
- Non sterile

Storage conditions

- Store in cool dry place.
- Avoid temperature variations and humidity.
- Protect from any possible contamination.
- Protect from any damage to the packaging, which could compromise sterility and RNase, DNase and DNA contamination.

Recommended use

- Check closure when using biohazard material and/or chemical reagents.
- Follow chemical resistance chart recommendations
- Follow manufacturers instruction for automated equipment
