TECHNICAL INFORMATION

ImmunOTM

Catalog Number: 980641, 980642, 980643

Normal Antibody Diluent

Description: This antibody diluent is compatible with common stabilizing compounds at pH 7.3. Contains phosphate buffered saline. The buffer is filtered through a 0.2 um filter.

Use: It is recommended that with very dilute protein solutions that a protein stabilizer such as 0.5% BSA (protease free) or other stabilizer consistent with the intended application be added for long term storage.

Characteristic: Ready to use diluent.

Storage: Room temperature.

Note: This product may contain a preservative such as sodium azide, thimerosal or proclin. Please see lot specific chemical credential for preservative information.
