10115 ▶ **Sigma-Aldrich.**

Amyloglucosidase from *Aspergillus niger*

★★★★★ (0)

lyophilized, powder, ~70 U/mg

Synonyme(s):

1,4- α -D-Glucan glucohydrolase, Exo-1,4- α -glucosidase, Glucoamylase

Numéro CAS: **9032-08-0**

Numéro EC: **232-877-2**

NACRES: NA.54

Numéro de classification
(Commission des enzymes): **3.2.1.3 (BRENDA, IUBMB)**

Numéro MDL: **MFCD00081350**

DESCRIPTION

Description générale

We are committed to bringing you Greener Alternative Products, which adhere to one or more of The 12 Principles of Greener Chemistry. This product has been enhanced for energy efficiency and waste prevention when used in starch hydrolysis research. For more information see the [article in biofiles](#).

Amyloglucosidase is a disaccharide enzyme belonging to the α -glucosidase type. It is produced by several species of *Aspergillus* genus.

Application

Amyloglucosidase from *Aspergillus niger* has been used in glycogen assay and in acetate buffer for starch hydrolysis. It can also be used for glycogen determination in whole yeast cells and synthesis of hetero-oligosaccharides by glucoamylase in reverse.

Définition de l'unité

One unit corresponds to the amount of enzyme which liberates 1 μ mole of glucose per minute at pH 4.8 and 60 °C (starch acc. to Zulkowsky, Cat. No. 85642, as substrate).

QUESTIONS FRÉQUEMMENT POSÉES (FAQ)

Which document(s) contains shelf-life or expiration date information for a given product?

If available for a given product, the recommended re-test date or the expiration date can be found on the Certificate of Analysis.

How do I get lot-specific information or a Certificate of Analysis?

The lot specific COA document can be found by entering the lot number above under the "Documents" section.

How do I find price and availability?

There are several ways to find pricing and availability for our products. Once you log onto our website, you will find the price and availability displayed on the product detail page. You can contact any of our Customer Sales and Service offices to receive a quote. USA customers: 1-800-325-3010 or view [local office numbers](#).

What is the Department of Transportation shipping information for this product?

Transportation information can be found in Section 14 of the product's (M)SDS. To access the shipping information for this material, use the link on the product detail page for the product.

What is the molecular weight of Product 10115, Amyloglucosidase from Aspergillus niger?

Amyloglucosidase from *A. niger* exists in two isoforms with MWs of 69,810 and 89,130, as determined by SDS-PAGE. See: Starch, 34, 346 (1982).

Does Product 10115, Amyloglucosidase from Aspergillus niger, contain any stabilizers or additives?

No extending additives such as glucose or sucrose are added. Only sodium acetate buffer salts are added. It is unknown if the starting material contained any additives.

How can a solution of Product 10115, Amyloglucosidase from Aspergillus niger, be prepared?

A 1 mg/mL solution may be prepared in water, or in 10 mM sodium acetate buffer at approximately pH 4.8.

My question is not addressed here, how can I contact Technical Service for assistance?
