MyPipetman®

SELECT

IMPROVED PIPETTING AND PERSONALIZATION OPTION

Air-Displacement Pipettes

Ergonomic, safe, and reliable, MyPIPETMAN® Select offers volume setting choice and optional handle personalization for optimal use in various protocols.

Select, Set, and Secure Volumes with the Trilock™ System

The unique and patented Trilock™ volume-locking system enables you to choose different positions when setting the volume:

- Free volume setting position for quick and effortless volume adjustment
- Light ratchet volume setting for precise volume adjustment
- Volume locked position for secure pipetting

With this new Trilock system, the volume is adjusted simply by turning the push button of the pipette.

Ergonomic Design

Lightweight and well-balanced, MyPIPETMAN Select has an elegant design with a textured effect for a better grip.

With no compromise on quality and performance, the built-in ejection system provides reduced tip ejection forces. This patented ejection system reinforces the pipette's ergonomics for convenient use throughout the day.

Handle Printing with Your Text on Demand

MyPIPETMAN Select can have their handles printed on demand. Identify your pipette to avoid any risk of contamination by dedicating it to a specific liquid or workflow step and improve your lab Lean Management process.
