Montage / Assembly:

The diagram shows a top-down view of a two-wheeled mobile robot. It consists of two large, rounded rectangular wheels. A central circular unit labeled 'B' is connected to the inner side of each wheel by two arrows pointing outwards. Below the wheels, a circular unit labeled 'L' is connected to the bottom of each wheel by two arrows pointing inwards. The wheels have several small circles on their top surfaces, possibly representing sensors or markers.

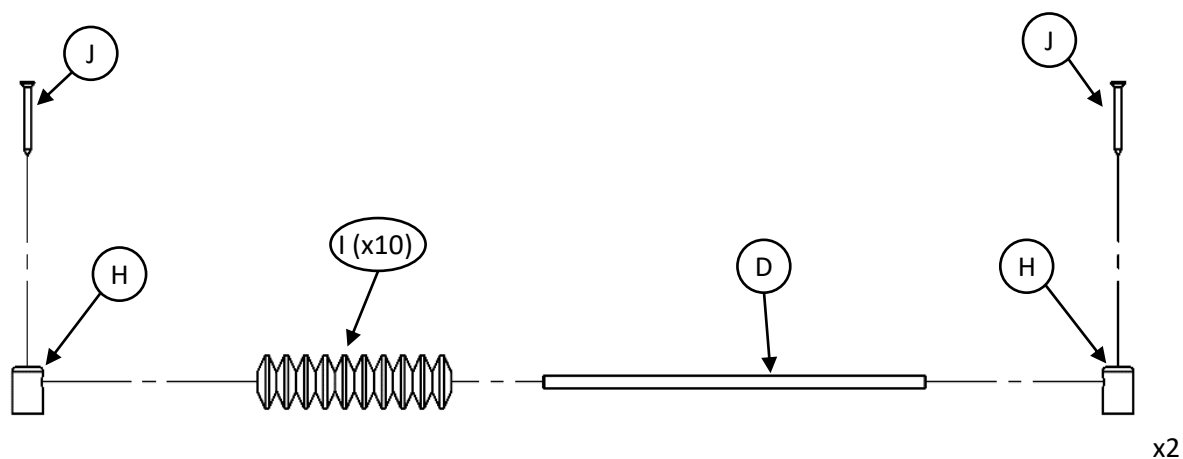

x2

This diagram illustrates the exploded view of a wooden toy construction set. The main structure is a rectangular frame with four legs, constructed from wooden beams and connectors. Various components are shown in their relative positions, including wheels, axles, and small connectors. Callouts labeled 'M' point to specific parts, likely indicating the location of the motor or a specific assembly point. The diagram is a technical drawing used for assembly instructions.
