FABRICS

Primary fabric

TS446
GORE-TEX PRODUCT with PFCec FREE DWR: 3-layer polyester twill woven fabric (164 g/sqm). Very soft to the touch, developed to provide high comfort. Excellent waterproof (28,000 mm water column), breathable (RET < 9) and water-repellent properties, dries quickly and is easy to clean. Offers high abrasion resistance and is guaranteed to be permanently waterproof. The special water-repellent PFCec FREE DWR finishing, which ensures the absence of fluorinated compounds, harmful to the environment.

ACTIVITIES
